

Z-Wave and EnOcean: Activate extensions for V6 Plus or V5 Plus

The AIO GATEWAY V6 Plus is equipped with two USB ports to provide the option to additionally use Z-Wave standards via connected USB-Stick. EnOcean is embedded in V6 Plus and requires noch USB-Stick. V5 Plus is equipped with two USB ports to provide the option to additionally use Z-Wave, Zigbee and EnOcean radio standards via connected USB sticks.

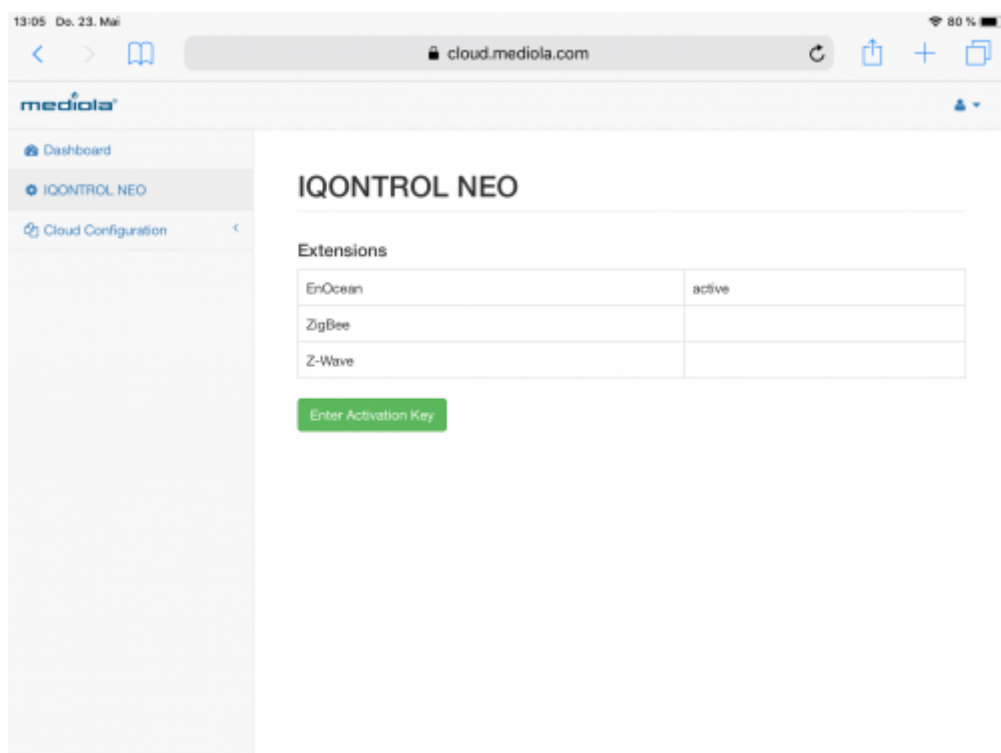

For this purpose a special bundle of USB stick and activation key is required, which can be purchased in the mediola online shop.

IMPORTANT: Please note that for use in IQONTROL NEO you need special IQONTROL NEO activation keys. Activation keys for AIO CREATOR NEO Plugins can not be used.

Activate extensions under Android

Go to *main menu* -> *Extensions* and enter your activation keys.

Activate extensions under iOS

If you are using an iOS device, please enter your activation key in [Cloud interface](#). Here you can log in with your mediola account credentilas and then enter the activation code in the *IQONTROL NEO* tab.
