

## NEO Development and Upgrades

We are continuously working on the development of new features for AIO CREATOR NEO. Due to our ambitious as well as complex All-In-One approach on the one hand and the exceptional development speed of Smart Home technologies on the other hand, NEO offers new product innovations very dynamically. This results in a release cycle of approximately 6 - 12 months for paid NEO upgrade versions.

For all **Major- und Minor-Upgrades** (1. or 2. digit of version number changes) you have to buy a new licence or you use the → [Subscription Update Service \(short: SUS\)](#) to profit from all NEO Upgrades cost-effectively.

Patch-Service-Updates (only 3. digit of version number changes) are free of charge.
