

Device Manager

To integrate and manage all your devices and gateways you can use the device manager. You can open the device manager by clicking on the device manager icon in the top bar or via settings menu.

The device manager consists of the two categories [devices](#) and [gateways](#).

- integrate devices via AIO GATEWAY
- import devices from HomeMatic CCU
- import devices from MAX! Cube
- import devices from Rademacher Homepilot 1/2
- import devices from Philips hue bridge
- import devices from Contronics ExecEngine
- integrate EASY LED / Mi Light Controller
